CLASSIC CONCEPTS[®]

acrylic by design

MANUFACTURERS OF ACRYLIC PRODUCTS

Expertise in :

- Pharma Companies
- Hospitality Industry
- Manufacturing Industry
- I T Industry
- Aerospace Industry

ABOUT US

Classic Concepts started with the idea to add value to the requirements of the end customers by utilizing the innovative technologies for designing Acrylic Products. We are well versed to provide any kind of solution you require to meet your needs. Our aim to deliver quality engineered products to satisfy our customers in every ways possible makes us the market leader when it comes to design Acrylic Products. The products we manufacture are durable, easy to handle and are competitively priced along with elegant finish.

Classic Concepts boasts of having an ace team of highly qualified engineers who are dedicated to help our benevolent clients and customers regarding their queries and by providing them the solutions, they have been looking for. Besides, we also provide quick after sales services to our clients whenever required. With every delivery, our packaging and warehouse team of experts make sure that our product reaches you without any defects or faults. Quality is never compromised here and that is what makes us different from our contemporaries.

We love to satiate our customers with our products and we are passionate about it. Our sole objective is to provide with a winning design, exactly the one you visualize.

Let us know what you are looking for, we will be happy to create the solution for your needs!

IN THE PRESS

OUR INFRASTRUCTURE

Business Model

Based on the fundamental principle of creating value to the end customer by using innovative methodologies for designing Acrylic solutions and conceptualizing client requirements to provide customized products & items, thus sustaining ourselves by generating profits.

Our Initial Approach

Our initial discovery phase was focused as a conservative approach.

The soft launch at Deccan States Expo - HICC Novotel, Hyderabad was a carefully calibrated & calculated approach designed to help us gain a dip-stick view of our target audience.
